

Page / UI Guide

Rotana Spa Management System — screen-by-screen definition.

Each page lists the route, who can see it (permission resource), the main widgets/actions, and the fields used. Most operational workspaces are rendered by a single dynamic page (`/dashboard/spa/[section]/[module]`) driven by a module definition — the fields below are the definitions for that module.

1. Login & entry

`/login` (and `/`)

- Email + password form, sign-in button.
- Demo/entry variants: `POST /api/login` (admin), `/api/login/super-admin`, `/api/login/employee`, `/api/login/guest`, `/api/login/company`.
- On success the app stores `token` and `user` in `localStorage` and redirects to the dashboard (super admin → `/dashboard/admin`).
- **Language switcher** (English / Amharic) available before login.

2. Dashboard

`/dashboard` (**Dashboard**)

- Greeting (time-of-day) and company name.
- **Quick actions:** New Visit, New Booking, Register Member, Service Orders.
- **Module cards:** Spa Management, Audit.
- **Spa Quick Stats:** Total Members, Today's Visits, In Treatment, Draft Orders (clickable).
- **Recent Members** table: code, name, plan, status badge (Active / Expired).

3. Customers

`/dashboard/spa/customers/profiles` (**Customer Profiles**)

- Searchable list of members: customer code, full name, phone, plan, status, dates.
- Actions: view profile, register, edit.
- `/dashboard/spa/customers/profiles/[id]` — customer detail: contact, plan, visits, notes.

`/dashboard/spa/customers/medical-records` (**Medical Records**)

Fields: Customer Name*, Member Code, Record Type (consultation/condition/allergy/medication/injury/other), *Provider*, *Record Date*, Follow-up Date, Clinical Notes*.

`/dashboard/spa/customers/visit-history` **(Visit History)**

- List of a customer's sessions/visits with dates, facility, duration, source.

`/dashboard/spa/customers/loyalty` **(Loyalty)**

Fields: Customer Name*, Member Code, Tier (bronze/silver/gold/platinum), *Available Points*, Lifetime Points, Enrolled On*, Notes.

4. Membership

`/dashboard/membership/plans` **(Membership Plans — classic)**

- Grid/table of plans: name, type (gym/spa/cafe/general), duration days, max members, active flag.
- Create / edit / delete.

`/dashboard/spa/membership/member-registration` **(Member Registration)**

Fields: Full Name*, Phone, Email, ID Number, Address, Plan, Start Date, Notes.

- Auto-generates `MEM-###` code when none is supplied.

`/dashboard/spa/membership/renewals` **(Renewals)**

- List subscriptions approaching expiry; extend end date.

`/dashboard/spa/membership/freeze-transfer` **(Freeze / Transfer)**

Fields: Member Name*, Member Code, Request Type (freeze/transfer), *Effective Date*, Freeze End Date, Transfer To, Reason*.

`/dashboard/spa/membership/digital-cards` **(Digital Cards / RFID)**

- List RFID cards: card UID, member, type, status (active/inactive/lost/expired), dates.

`/dashboard/spa/membership/qr-access` **(QR Access)**

- QR passes: pass type, token, issued/expiry dates, max uses, current uses, status.

Classic membership screens (also present)

- `/dashboard/membership/members`, `.../members/[id]`, `.../subscriptions`, `.../payments`, `.../rate-cards`, `.../facilities`, `.../gates`, `.../rfid-cards`, `.../qr-passes`, `.../day-tickets`, `.../sessions`, `.../attendance`, `.../schedule`, `.../access-logs`, `.../gym`.

5. Operations

`/dashboard/spa/operations/visits` (Visits — reception)

- Table of visits: visit no, customer, therapist, status, check-in time.
- **Check in** a customer (member or guest).
- Visit status flow: `checked_in` → `assigned` → `in_treatment` → `finished` → `order_printed` → `handed_to_cashier` (or `cancelled`).
- `/dashboard/spa/operations/visits/[id]` — visit detail + treatment workspace:
 - Assign therapist, start treatment.
 - Add service lines (service, quantity).
 - Finish → generate service order, print, hand to cashier.

`/dashboard/spa/operations/appointments` (Appointments / Bookings)

Fields: customer/member, facility/room, service, start time, end time, status, notes.

`/dashboard/spa/operations/sessions` (Sessions)

- Active session list with check-in/check-out and duration.

`/dashboard/spa/operations/queue` (Queue)

Fields: Customer Name*, Service*, Assigned To, Priority (normal/priority/urgent), *Joined At*, Estimated Minutes, Notes.

`/dashboard/spa/operations/customer-requests` (Customer Requests)

Fields: Customer Name*, Request Type (booking/reschedule/facility/service-order/complaint/special-assistance/other), *Channel*, *Requested For*, *Assigned To*, *Details*, Resolution.

`/dashboard/spa/operations/towel-management` (Towel Management)

Fields: Visit Number*, Customer Name*, Towel Type (bath/hand/face/robe/other), *Quantity Issued*, Quantity Returned, Issued At*, Returned At, Notes.

- Status derived: issued / partially-returned / returned / lost.

`/dashboard/spa/operations/service-orders` (Service Orders)

- List of draft orders: order no, visit, customer, status (draft/printed/handed_to_cashier/void), item count.
- Print, re-print, view slip.

6. Gym

Page	Route	Fields
Trainers	/dashboard/spa/gym/trainers	Full Name*, Phone, Email, Specialties*, Certifications, Hire Date, Commission Rate (%)
Workout Plans	/dashboard/spa/gym/workout-plans	Plan Name*, Member Name*, Trainer, Goal, Start Date*, End Date, Sessions/Week, Exercises*
Fitness Assessment	/dashboard/spa/gym/fitness-assessments	Member Name*, Trainer*, Assessment Date*, Fitness Level, Resting Heart Rate, Blood Pressure, Body Fat %, Notes
Body Measurements	/dashboard/spa/gym/body-measurements	Member Name*, Measured On*, Weight, Height, BMI (auto), Chest, Waist, Hips, Body Fat %
Classes	/dashboard/spa/gym/classes	Class Name*, Trainer*, Location, Starts At*, Duration*, Capacity*, Enrolled, Notes
Attendance	/dashboard/spa/gym/attendance	Gym check-in log with check-in/out times.

Class status is derived: scheduled / open / full / in-progress / completed / cancelled.

7. Spa

Page	Route	Fields
Services	/dashboard/spa/spa/services	Service Name*, Service Code, Category (massage/facial/body-treatment/wellness/beauty/other), <i>Duration (min)</i> , Description
Therapists	/dashboard/spa/spa/therapists	Full Name*, Phone, Email, Specialties*, Certifications, Commission Rate (%), Hire Date
Treatment Rooms	/dashboard/spa/spa/treatment-rooms	Rooms/facilities list (type, capacity, active)
Bookings	/dashboard/spa/spa/bookings	Appointment/booking calendar
Packages	/dashboard/spa/spa/packages	Package catalogue

8. Inventory

Page	Route	Fields
Products	/dashboard/spa/inventory/products	Name*, SKU, Category, Quantity*, Unit, Reorder Level, Unit Cost
Consumables	/dashboard/spa/inventory/consumables	Name*, Category, Quantity, Reorder Level, Unit
Stock Usage	/dashboard/spa/inventory/stock-usage	Item, quantity used, linked service/visit
Suppliers	/dashboard/spa/inventory/suppliers	Name*, Contact, Phone, Email

Stock status is derived: in-stock / low-stock / out-of-stock.

9. Staff

Page	Route	Fields
Employees	/dashboard/spa/staff/employees	Full Name*, Phone, Email, Role, Employment Date
Schedules	/dashboard/spa/staff/schedules	Employee, day, shift times
Commission	/dashboard/spa/staff/commission	Employee, Base Amount, Rate % → Commission Amount (auto)
Performance	/dashboard/spa/staff/performance	Employee, period, rating/notes

10. Facilities

Page	Route	Fields
Rooms	/dashboard/spa/facilities/rooms	Name*, Type, Capacity, Description, Active
Lockers	/dashboard/spa/facilities/lockers	Locker no, assigned member, status
Equipment	/dashboard/spa/facilities/equipment	Item, condition, maintenance due
Maintenance	/dashboard/spa/facilities/maintenance	Item, issue, priority, status

11. Reports

All reports share the same layout: **date range filter (from/to)** → summary cards → data table → export.

Report	Route	Contents
Membership	/dashboard/spa/reports/membership	Total/active/expired members, plans, subscription performance
Attendance	/dashboard/spa/reports/attendance	Check-in volume, active visits, attendance trends
Service Orders	/dashboard/spa/reports/service-orders	Draft/printed/handoff volume, item counts (no financials)
Therapist	/dashboard/spa/reports/therapist	Treatment volume, service usage, completion trends
Trainer	/dashboard/spa/reports/trainer	Class assignments, member activity
Inventory	/dashboard/spa/reports/inventory	Stock position, low stock, usage

12. Settings & Administration

`/dashboard/users` (+ `/users/add`, `/users/edit/[id]`)

- List users; create/edit with name, email, role, phone, active.
- Fields: Full Name*, Email*, Role*, Phone, Active.

`/dashboard/roles` **(Roles & Permissions)**

- Role list; per-role permission matrix grouped by resource group (Dashboard, Customers, Membership, Operations, Gym, Spa, Inventory, Staff, Facilities, Reports, System).
- Each resource row: view / create / edit / delete / approve toggles.

`/dashboard/system-settings` **(System)**

- Company settings: name, address, phone, email, currency.

`/dashboard/audit` / `/dashboard/audit/activity` / `/dashboard/audit-logs` **(Audit)**

- Table of audit events: user, action (CREATE/UPDATE/DELETE), table, record id, old/new values, IP, user agent, timestamp.

`/dashboard/settings/id-definitions` **(ID Definitions)**

- Numbering rules per entity: prefix, separator, padding, start, reset type, pattern.

Platform (super admin only)

- `/dashboard/admin` — Admin dashboard.
- `/dashboard/companies` — Company management (name, code, address, TIN, status, modules).
- `/dashboard/demo-licenses` — License keys with expiry and status.
- `/dashboard/admin/manuals` / `issued-manuals` — Manual documents.

13. Notifications

- Bell icon in the header; list of notifications with title, message, type, read/unread.

Shared UI components

Component	Purpose
<code>DataTable</code>	Sortable, searchable table for list pages.
<code>SearchInput</code>	Header search box.
<code>StatCard</code>	KPI card on dashboards and reports.

Component	Purpose
StatusBadge	Colour-coded status (active/expired/draft/printed/in treatment, etc.).
FormField	Labelled form input with validation.
ConfirmDialog	Delete confirmation modal.
EmptyState	Friendly empty list placeholder.
PageHeader	Page title + actions.
ReportFilters	Date-range filter used by all reports.
